PROFESSIONAL SUMMARY

Third-year Software Engineering undergraduate with hands-on experience in full-stack development through an internship and academic projects. Skilled in Python, Django, JavaScript, React.js, Flutter, databases, and web development, with experience in API integration, object-oriented programming, software testing, and version control. A motivated and fast-learning developer seeking opportunities to contribute to software development teams while continuing to build industry experience.

SKILLS

Programming: Python, Java, JavaScript, HTML5, CSS3, PHP

Frameworks & Development: Django, React.js, Node.js, Flutter, Tkinter, Responsive Web Design

Databases & Backend: MySQL, MongoDB, Firebase, Supabase, API Integration

Development Tools: Git, GitHub, VS Code, Figma, Canva

Software Engineering: Full-Stack Development, Frontend Development, Backend Development, Mobile Application Development, Object-Oriented Programming (OOP), Software Testing & QA, Debugging, Problem Solving, UI/UX Principles, Version Control

AI Tools: ChatGPT, GitHub Copilot, Claude, Gemini

Professional Skills: Team Collaboration, Communication, Leadership, Time Management, Creativity, Adaptability, Fast Learning

WORK EXPERIENCE

Full-Stack Developer Intern **April 2026 – July 2026**
InforaTech

- Contributed to full-stack software development tasks as part of an internship development team.
- Developed and completed assigned software development tasks while following project requirements and deadlines.
- Collaborated with team members throughout the development process to support project delivery.
- Applied software development concepts and programming skills to practical industry-based tasks.
- Participated in team-based development activities and gained practical exposure to professional software engineering workflows.

EDUCATION

BEng (Hons) Software Engineering **2024 – Present**
University of Westminster - UK Affiliated with at Informatics Institute of Technology (IIT)

Diploma in Human Resource Management **2025 | 6 Months**
Al-Mustafa International University – Iran

- Final Result: A-

G.C.E. Advanced Level Examination – Commerce Stream **2022/ 2023**
P/Fathima Balika Maha Vidyalaya

- Subjects: Information & Communication Technology (ICT), Accounting, Business Studies

G.C.E. Ordinary Level Examination **2019**
P/Al-Aqsa National School

- A Pass in ICT
- 5 B Passes, including Sinhala, English, and Mathematics
- 3 C Passes

CERTIFICATIONS & TRAINING

Foundation Certificate in Higher Education
Informatics Institute of Technology (IIT)

September 2023 – December 2023

Completed four modules:

- Introduction to Programming Principles
- Digital Skills & Higher Education
- Mathematics for Computing
- Academic Skills for Higher Education

Ethical Hacking Certification
MarsTech Campus

2022

Covered fundamental cybersecurity concepts including vulnerability assessment, penetration testing, and methods for protecting systems against digital threats.

PROJECTS

SaveOnix App - AI-Powered Savings Application
Software Development Group Project

- Developed a full-stack mobile savings management application using Flutter for the frontend and Python Django for the backend.
- Implemented features allowing users to create savings goals, track progress, and manage shared savings goals.
- Developed a reward badge system to encourage users to maintain their savings activities.
- Applied API integration, database management, frontend development, and backend development concepts.
- Collaborated within a software development team to design, develop, and integrate application features.

Technologies: Flutter, Python, Django, APIs, Database Management

Life on Land - Sustainable Development Goal 15
Web Design & Development Project

- Designed and developed a responsive informational website based on UN Sustainable Development Goal 15 – Life on Land.
- Developed structured and user-friendly web pages using HTML, CSS, and JavaScript.
- Collaborated with a 4-member team throughout the design and development process.
- Applied responsive web design, accessibility, usability, and clear content presentation principles.
- Contributed to the development of an engaging and informative web experience across different screen sizes.

Technologies: HTML, CSS, JavaScript, Responsive Web Design

Traffic Data Analysis System
Software Development Coursework

- Developed a Python-based traffic data analysis system to process and analyse CSV datasets containing junction traffic information.
- Implemented data validation and file-handling functionality to manage traffic datasets effectively.
- Developed histogram visualisations using Tkinter to present traffic-related information.
- Calculated key metrics including vehicle counts, speed violations, electric vehicle percentages, and rainfall duration.
- Applied Object-Oriented Programming (OOP) principles to create modular and maintainable code.

Technologies: Python, Tkinter, CSV, OOP, Data Visualisation

LANGUAGES

Tamil: Native | Sinhala : Fluent | English: Good Working Proficiency
